Introduction to Problem Solving Skills, Page 2

Video: Insight Learning: Chimpanzee Problem Solving
Link: https://www.youtube.com/watch?v=fPz6uvIbWZE
Duration: 1 minute, 4 seconds

NARRATOR: At the Max Planck Institute for evolutionary anthropology in Leipzig, Germany, psychologist Josep Call places a peanut inside a clear tube. How can the chimpanzee get the snack? She's never seen this puzzle before.

JOSEP CALL: For ten minutes, there's no solution in sight. And all of a sudden, boom, they solve it. They have to understand that they can use the water as a tool. It's interesting because the water itself doesn't have any shape.

NARRATOR: Using water as a tool seems like something we would do, on a good day.
